

Company Profile

SUN MOULDING SDN.BHD.
(185522-P)

Company Profile

Sun Moulding Sdn Bhd was established in 1989 with a commitment to provide our clients with the finest and the best quality of products in the field of Precision Mould. Sun Moulding believes in giving the best quality of products and the best quality of service. In line with this commitment, Sun Moulding's philosophy is constantly to upgrade its high precision machineries to produce high quality of plastic injection moulds by utilizing our state of the art computerized network system to meet your stringent demands.

OUR PHILOSOPHY

- Ensuring our clients with the best quality of product and services,
- Highly motivated and well trained personnel,
- A unique production system to ensure on time deliveries, and
- Up to date technology to meet the demands of our present and future clients.

SUN MOULDING SDN.BHD.

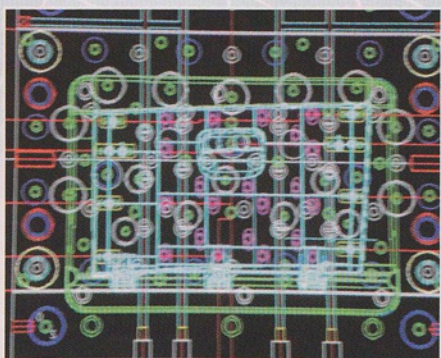

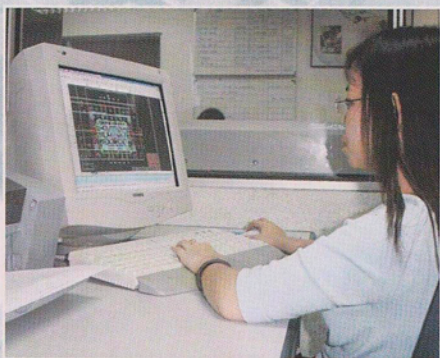

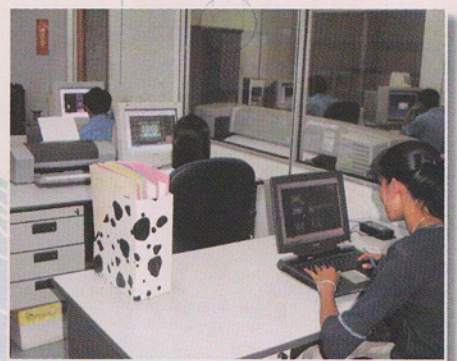

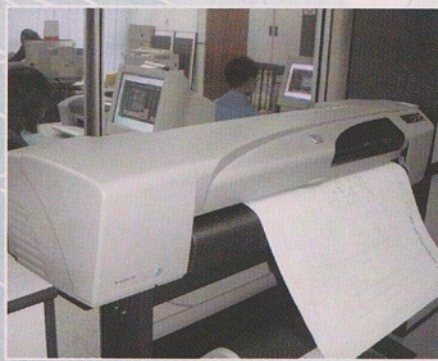

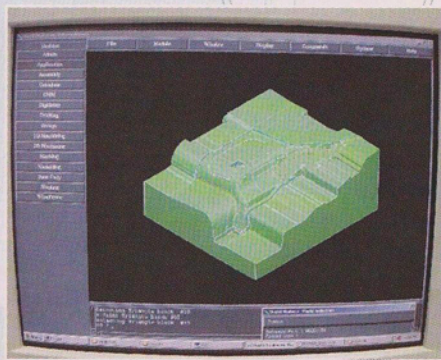

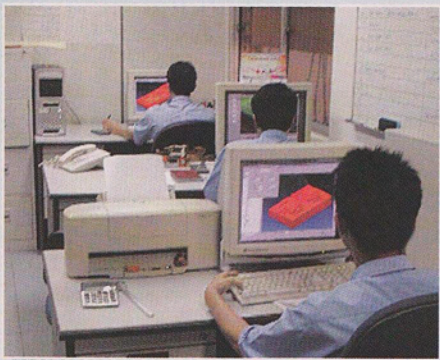

On Line Computerised CAD / CAM

SUN MOULDING SDN BHD with 15 years of experience in its efficiency and flexibility with it's careful planning and data processing have ensured a continue quality approach in its High-Tech development in the successful growth of the company .

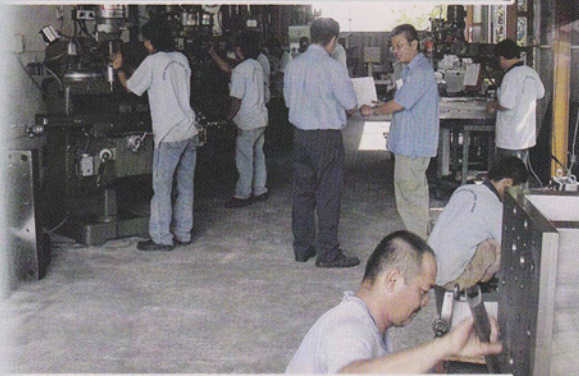

CAD / CAM provide 3D design to ensure high accuracy , minimum defect and wastage.

R & D backed high precision measuring in control room.
